RSA® Conference 2020 APJ

A Virtual Learning Experience

**What are the top 3-5 security benefits to
an organization for moving to a public
cloud environment?**

RSA® Conference 2020 APJ

A Virtual Learning Experience

How should a CISO organization staff for cloud security? What are the various roles across architecture, engineering and operations required for success?

RSA® Conference 2020 APJ

A Virtual Learning Experience

Why is it important to understand shared responsibility when moving to a public cloud environment?

RSA® Conference 2020 APJ

A Virtual Learning Experience

How can organizations gain assurance that the service provider's side of the shared responsibility implements appropriate controls? Are these controls verified and audited by independent third parties?

RSA® Conference 2020 APJ

A Virtual Learning Experience

For security controls that the customer is required to implement, what sources of best practices or industry frameworks can CISO teams leverage? NIST CSF, CIS Top 20, PCI-DSS, etc?

RSA® Conference 2020 APJ

A Virtual Learning Experience

Why is identity so important in a public cloud environment? What are some best practices to consider?

RSA® Conference 2020 APJ

A Virtual Learning Experience

How do CISO teams protect PII in the cloud? How do cloud providers provide the capability to protect an organization's most sensitive data?

RSA® Conference 2020 APJ

A Virtual Learning Experience

As a CISO, I often hear that I cannot get enough visibility into my cloud environment and I am unsure what the application teams are doing. Is this true? How do cloud providers provide visibility?

RSA® Conference 2020 APJ

A Virtual Learning Experience

Why is automation so important from a security perspective in the cloud and how can it be used to increase an organization's ability to effectively respond to incidents faster than on-premise?

RSA® Conference 2020 APJ

A Virtual Learning Experience

How can the cloud help me implement security at every stage of the software development life-cycle?

RSA® Conference 2020 APJ

A Virtual Learning Experience

What are 3 key next steps for a CISO organization to consider when moving to cloud?

RSA® Conference 2020 APJ

A Virtual Learning Experience

Thank You!
