WHY BOLDON JAMES?

For over 30 years, Boldon James has been a market leader in data classification and secure messaging solutions. We help organisations of all types and sizes manage sensitive information securely. Boldon James is an autonomous subsidiary of QinetiQ Group plc and therefore we have robust and reliable financial backing.

Our goal is to make data classification easy for you in terms of simple integration and organisation wide buy-in.

We have a strong customer-centric ethos and are proud of our service excellence. With five million end-users worldwide, we are trusted to deliver by our clients.

DATA CLASSIFICATION

KNOW YOUR FILES. VALUE YOUR DATA.
PROTECT YOUR BUSINESS.

boldonjames.com

DATA CLASSIFICATION

Identify and protect your most valuable information

If you don't understand what data you have, how can you know how to protect it?

Data classification allows your users to assign a visual label to the data they create, so that informed decisions can be taken about how it is managed, protected and shared, both within and outside of your organisation.

CLASSIFIER360

Blending user-driven and automated classification to meet your needs

Classifier360 is an Enterprise Classification System that blends together best practice in user-driven and automated classification techniques to meet your exact business needs.

BOLDON JAMES CLASSIFIER

The foundation of effective data protection

The **CLASSIFIER SUITE** is a flexible data classification product set, offering a range of optional elements to help you protect data throughout its journey. Using our class-leading unified administration console you can see and manage all your data classification activities simply in

one place. Classifier is easy to set up and integrate with your existing technology solutions, with out of the box integrations with [Microsoft Azure RMS](#), and data loss prevention solutions from [Symantec](#), [Forcepoint](#) and [Intel Security](#).

Integrates with:

CLASSIFIER IN ACTION

Integrating classification into daily productivity tools

Visual and Metadata Labels

Policy Check

Mobile Classification

Monitoring and Reporting
